Bretos, Alpha 66

The Geraci's mentioned that he work d at the Fiat place. I asked JB abo about him the afternoon of 7/12, when I returned his car. He didn't recall where the man was but asked and learned he had gone to a Fiat dealer in Miami during 1965, which is the time Philip was "hot". JB recalled Philip's name and said he had just seen checks or a payroll record. He said he'd send. He asked one of the employees about Bretos and learned that he had been back to N.O. during Xmas 1967. When I asked if he could have introduced Philip for a job the employee said the only one he had was named Romero. JB thinks Philip was parts boy.

Paents said he had job with relative.
